a comparative study of immigration and ethnicity with an emphasis on the chinese japanese and arabs who have contributed to brazil s diverse mix

no japanese leader has dominated japan s recent political landscape more than the late abe shinzo with the this as the basic premise the main objective of this compiled volume is to examine and assess japan s foreign and domestic policies during the 2010s a decade which largely overlaps with abe s tenure as prime minister this book is much more than a mere study of abe s leadership however as it ventures far beyond the traditional scope of diplomatic and political history by incorporating a multidisciplinary approach as such the contributors comprise not only historians and political scientists but also sociologists economists legal experts journalists and practitioners of diplomacy this diversity in backgrounds makes it possible to examine a much wider range of topics and themes that clearly illuminate the multitude of challenges that japan faced in the decade as well as how it responded to those challenges leading to a more thorough understanding of the path that japan took in the 2010s

underpinned by a hybrid methodology ranging from social sciences to human sciences this book parses mediation in four perspectives which stands as an unparalleled methodological approach so far mediation has long been tethered to piecemeal and haphazard approaches which have flatly failed to capture the gist of the uniqueness of this often poorly latched on and poorly understood dispute resolution mechanism this book argues that in order to fully grasp the richness of such dispute resolution mechanism mediation must be parsed in four tiers the first tier is the social dynamics of mediation the second tier is the cultural dynamics of mediation the third tier is the legal dynamics of mediation the fourth tier is the cross border and cross cultural dynamics of mediation taken together the four tiers that premise the four tiered model of mediation seek to unlock the finding in view of which law and social reality are tightly interlocked in this vein it is the underlying social reality of a given jurisdiction that should dictate the design of a pre suit court connected mandatory mediation with an easy opt out a central claim of both social dynamics of mediation the first tier of the four tiered model of mediation and legal dynamics of mediation the third tier of the four tiered model of mediation
